Notes to editors:

Stratex International Plc is an AIM-quoted exploration and development company currently focussing on gold and base metal opportunities in Turkey and Ethiopia. In Turkey, the Company's total resources stand at circa 1 million oz of gold (combined oxide and sulphide gold) and approximately 3.2 million oz of silver.

Stratex's proven strategy is to discover and develop new projects by focussed low-cost exploration, thus adding maximum value prior to optioning/joint venturing or selling on to a dedicated mining company. In this respect it now has four key associations:

1. A partnership with NTF, a technically capable and well-financed Turkish company, to rapidly develop the 542,318 oz oxide resources present at the Altıntepe and Inlice projects in Turkey.
2. An option/joint venture agreement with Centerra Exploration J.V., a wholly owned subsidiary of Centerra Gold Inc., to explore and develop the Öksüt project, a high-sulphidation gold discovery located in Central Anatolia in Turkey.
3. A joint venture agreement with Teck Resources of Canada, a major shareholder in Stratex, over the Hasancelebi project, a high-sulphidation gold project in central Turkey.
4. A joint venture with PLUS-quoted exploration company Sheba Exploration (UK) plc to earn-in to an initial 60% of the prospective 37 sq km Shehagne gold project in Ethiopia and explore targets in northern Ethiopia on a 70:30 joint venture basis. It also holds a 5.45% shareholding in Sheba Exploration (UK) plc.
